Nina Petrov

Cloud Security & DevSecOps Engineer

nina.petrov@sec-ops.io | +1 (415) 555-7890 | Austin, TX

PROFESSIONAL SUMMARY

Security Engineer with 4+ years experience securing AWS cloud environments, containerized Kubernetes workloads, and CI/CD pipelines. Proficient in Python scripting, Linux security, OAuth2, and automated vulnerability scanning.

TECHNICAL SKILLS

Security & Cloud: AWS Security, IAM, Kubernetes Security, Docker, Linux, Python, Bash, Terraform

Compliance: SOC2, OWASP Top 10, OAuth2, JWT, Vulnerability Assessment, CI/CD Security

PROFESSIONAL EXPERIENCE

Cloud Security Engineer — Sentinel Defense Labs

2022 – Present (2 years)

- Implemented automated container vulnerability scanning in GitHub Actions CI/CD pipelines.
- Configured AWS IAM least-privilege security policies and multi-account guardrails.
- Automated threat detection and incident response workflows using Python and AWS Lambda.

Security Analyst — CyberTrust Systems

2020 – 2022 (2 years)

- Conducted penetration testing and code audits against OWASP vulnerability standards.
- Monitored security alerts in ELK SIEM and managed incident remediation.

EDUCATION

Bachelor of Science in Cybersecurity & Information Systems — University of Texas at Austin, 2020
